PROFESSIONAL EXPERIENCE

Andrea Losavio - Freelance

Jan 2023 - Present

Senior Software Engineer & Forward Deployed Engineer

- Worked with **10+ startups and small product teams** to close critical technical gaps and turn early-stage requirements into MVPs, production-ready products and scalable technical foundations, owning discovery, architecture, UI/UX, development, testing and delivery.
- Designed and built full-stack platforms with **Next.js, Node.js, PostgreSQL and Redis**, introducing more robust transactional flows, granular access control and automated processes to improve reliability, security and operations.
- Modernized legacy products and standardized development environments with **Docker and GitHub Actions**, creating reproducible workflows and CI/CD pipelines; also contributed to AI products by coordinating decisions across business, backend and design with tech-lead-level ownership.
- Redesigned a startup's website and product experience from the ground up before it later raised **nearly €2M**, and independently maintain **Fast Memo and Coolify Manager**, both with more than **1,000 downloads**, across mobile and desktop using Expo SDK and Tauri.

Minsait, part of Indra

Jan 2022 - Dec 2022

Full-stack Developer

- Worked on an international e-commerce product through a **continuous feedback loop with the client**, contributing to technical and product decisions to simplify funnels, reduce friction and improve flow completion.
- Built full-stack features with **React and Node.js**, automating backend data retrieval and validation to simplify the frontend and make user journeys faster and more reliable.
- Worked with **PostgreSQL, Redis, Docker, AWS and Azure**, analyzing queries and indexes, improving development environments and contributing to deployment and cloud configuration in enterprise contexts.

Doing, part of Capgemini

Mar 2021 - Jan 2022

Full-stack Developer

- Designed and evolved enterprise **multi-tenant and multilingual platforms**, focusing on scalability, component reuse and maintaining performance as sites and markets grew.
- Developed reusable full-stack components and features with **React, Java and Adobe Experience Manager**, reducing duplication and making the platform easier to extend across new tenants and content.

Deloitte Digital Italia

Dec 2018 - Mar 2021

Junior Full-stack Developer

- Became productive quickly across multiple enterprise projects, helping improve **delivery speed and team autonomy** with HTML5, CSS3, JavaScript, jQuery, React and Adobe Experience Manager.
- Built a strong direct relationship with the client, gaining increasing **autonomy over implementation decisions** and proposing solutions that balanced budget, delivery time and long-term maintainability.
- Collaborated with backend engineers on **APIs, validation and data security** while also working with Node.js and MongoDB, and supported Deloitte Amsterdam on an international React delivery with fixed deadlines.

EDUCATION & PROFESSIONAL REGISTRATION

Ordine degli Ingegneri della Provincia di Milano

2022

Registered Engineer - Section B, registration no. 34249

Politecnico di Milano - Milan, Italy

2015 - 2018

Bachelor's Degree in Computer Engineering

ITT G. Giorgi - Brindisi, Italy

2010 - 2015

Technical Diploma in Electronics

SKILLS

Frontend: TypeScript, JavaScript, React, Next.js, Tailwind CSS, React Native, Expo SDK, HTML5, CSS3, jQuery, Microfrontend

Backend & APIs: Node.js, Express.js, REST APIs, Prisma ORM, Auth0, RBAC, PostgreSQL, MongoDB, Redis, Firebase, Supabase

Cloud & Delivery: Docker, CI/CD, GitHub Actions, AWS, Azure, GitLab CI, GitHub Actions

AI & Product: Claude, ChatGPT, Gemini, Ollama, agentic AI workflows, Figma, Tauri, Adobe Experience Manager

Monitoring & Analytics: Hotjar, Vercel Analytics, Google Analytics, Google Tag Manager (GTM), Mixpanel, PostHog, Sentry

Testing: Unit testing, Integration testing, E2E testing, A/B testing

Languages: Italian (native), English
