ANDREA LOSAVIO

Software Engineer & Tech Partner

VAT: 12705460967

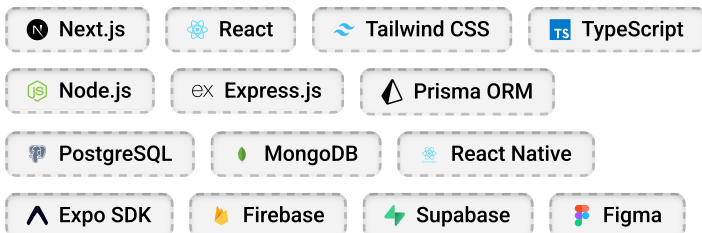

Profile

I am a **Computer Engineer** who graduated from **Politecnico di Milano** in 2019, registered with the professional board under number **34249**, section B. I have been passionate about programming since 2009, fascinated from an early age by the logic and structure behind software — exploring the fundamentals of programming, computer architecture, and algorithms.

I began my professional journey in the IT consulting sector in 2018 and started working as a **freelancer** in early 2023. Today, I collaborate with companies and startups as a **Software Engineer & Tech Partner**, helping them develop high-quality digital products and grow through tailored technological solutions.

In 2023, I designed and developed **Fast Memo** app and [website](#), currently available on both Android and Desktop (Linux, MacOS and Windows).
